NOTE: This listing is created for research and educational purposes only. I only own a small proportion of the phonograph records listed, and those I own are NOT FOR SALE. I also have no particular insight as to how to acquire them. With the information you have found here, [search eBay](#), [gemm.com](#), or [post a question to 78-C](#). Otherwise, you'll need to spend hours over a period of time searching junk stores, garage sales, record auctions (both mail and internet), and anyplace else that may have 78rpm discs for sale.
